"The Coin Machines Merry-Go-Round"

By Bill Gersh

BONDS

Sometime ago we reported that Secretary of the Treasury, Henry Morgenthau, frowned on coingames that gave war bonds and war savings stamps as prizes. Yet, there is no doubt among all of us in this industry, that this was done more in the spirit of stimulating sales than in the thought of a new method to help increase play. Regardless of the fact that the Secretary of the Treasury frowned on this practice, it is our belief that every possible move should be made to help continue speedy sales of war bonds by use of coin operated equipment of every type.

Secretary Morgenthau will probably recall with pleasure that the automatic phono industry was tremendously responsible for helping stimulate sales of war bonds in a big way by giving first spot on each phono to the Treasury's war bond song, "Any Bonds Today" and made it a national hit. The phono division of this industry went even further by donating its instruments to aid sales of war bonds and stamps without any regard to inconvenience and cost. And would continue to do this today would the Secretary again ask for its help.

The sales of war bonds and war savings stamps are the most important job that we can all do today. A glorious opportunity faces every coin machines man. He can win the confidence, respect and the glory and prestige of his own community, the nation at large and leave an enduring mark of good will that will be remembered for many years to come.

Every machine in the nation should bear a placard reading, "BUY THAT WAR BOND TODAY!" These placards, made up by local showcard painters, cost but a few pennies each, yet, if each and every coinman in the nation will make this small investment and put one on each machine he operates, he will be reminding one of the largest audiences in the country every day of the tremendous importance of purchasing war bonds. He will not only be patriotically backing up his own country, but also doing himself a great deal of good for today - and especially for the future.

It is our hope that every coinman will make it his business, the moment he is finished reading this article, to phone his local showcard painter and order cards (about 6" x 6" or larger) with the above suggested statement (or any other he likes) and have his servicemen or himself place one on each and every machine he has regardless of its location. Such a concerted action by every single one of the coinmen in this nation and such placards appearing on every coin operated instrument will win national acclaim that millions of dollars' worth of publicity could never purchase. It will be something that the press and the public will long remember with favor.

It takes but a second to phone. Phone your showcard painter NOW. YOU be the one to get started first. YOU be the one to tell the others to follow YOU. YOU be the one, after this campaign is well under way, to phone your local newspaper and tell them what YOU and YOUR INDUSTRY are doing to help YOUR COUNTRY. DO IT NOW!

JULY 1 DRAWS NEARER

Gradually the agitation begins to make itself apparent thruout the country as July 1st draws nearer. This is the date when the \$100.00 tax will go into effect on any pin game redeeming its free plays in any fashion whatsoever. It also means that a great many coinmen thruout the country will have to be ready on that day to hand over a lot of money to their Uncle Sam's Treasury Department for all types of equipment.

It isn't the thought of handing over license money to Uncle Sam that has created this agitation. As we stated in this past week's issue, this meets with the approval of the majority of the coinmen throughout the country for they realize that this money is necessary to the successful prosecution of the war. What is irritating and creating agitation is the fact that in some cases the taxation is unfair. Once again this industry awakens to the fact that someone has overtaxed it and placed such stringent rules and regulations on the enforcement of that tax that the games which were formerly meeting with complete approval of authorities in certain communities are now looked upon with askance by these same officials.

The one and only answer is for the leaders of this industry to appear before the Congressional Committee that will meet in Washington to listen to appeals and attempt as calmly, and with as much dignity as is possible, to explain the various injurious effects of this present taxation method.

As someone stated sometime ago, "Once politicians have the power to license your business, they also have the power of life or death over your business." And politicians play a very puzzling game. Bismarck probably was right when he stated, "Eliminate

"The Coin Machines Merry-Go-Round"

politicians if you want an honest and happy country." Yet, we must admit, that with all their shortcomings, politicians have also proven of value to this industry in many instances. But, they have also proven harmful in the greater majority of cases. If matters are not carefully and completely explained before the tax grievances committee in Washington by the men in this industry who are most capable of so doing this unfair taxation will continue. Petitioning your Congressman is but one part of the job. Writing the Committee is another. The really big job will be for those men who can clearly present a picture to the committee showing that the present taxation is not only unfair, but that it is creating loss of considerable revenue for Uncle Sam.

WOMEN WORKERS

Sometime ago we reminded the trade that women were among the best potential players of every type of coin operated instrument, and that the trade should make it its business to concentrate on these women workers who were earning much more money than they ever did before. We recommended that machines be so located that they attract women patronage. This doesn't mean, as we stated at that time, that it would be necessary to decorate each machine with frilly lace or give nylon stockings as prizes, but that the woman player today, should be catered to by locating machines to capture her attention and desire to play.

Word comes from Washington that women will have over 8 BILLION DOLLARS more to spend this year than in '41. That's a lot of spending money, anyway you look at it. Especially, if you compare this amount to the fact that all the Treasury Department asked for in its Second Victory Loan Drive was 13 BILLION DOLLARS. We do believe that this should give you some idea of the extreme importance of catering to the gals at this time with every type of coin operated equipment you have available.

LOCATIONS

Many issues ago we discussed the fact that about 15% of the nation's storekeepers are certain to be shut down by the end of '43. Of the 1,770,000 retail businesses in America this means that better than 250,000 will be out of business at the end of this year as a result of wartime forces beyond the control of the average citizen. This will represent the highest mortality rate among small stores on record. A casualty list that absolutely surpasses even the worst days of the last depression. It will mean that in a period of wartime prosperity without parallel in this nation's history, hundreds of thousands of people will be suffering severe hardships going thru family and business upheavals.

Also in that issue of The Cash Box we discussed suggestions for helping the trade to overcome whatever loss of locations there might come about. It is to the advantage of this industry that the greatest loss will be in stores selling household appliances, household goods generally, gasoline stations, meats and groceries. Therefore those locations which this industry uses in the majority will remain untouched and in fact some are greatly prospering, such as restaurants and many drink spots. The drug stores, taverns, candy spots and restaurants will probably continue right along.

Among the suggestions proposed in that issue of The Cash Box were the following:-
1.- that the average location be brought down to 30% commission basis. 2.- that operators make it their business now to survey their locations and cut down and concentrate on those they believe will outlast the war.

In this way the coin machines industry will continue its remarkable boom and be able to build the reserve for its members that will prove necessary to its continued well being for the post-war era.

ARCADES AND JUVENILES

In our past week's (May 11) issue, following up closely on the feature page in regard to "Juvenile Delinquency" that appeared in our previous (May 4) issue, we made reference to an article which has appeared in the Newark Evening News (Wednesday, April 28th) and which was given front page position, entitled, "A Night With City's Young Delinquents".

In this article (by John O. Davies, Jr.) he mentions the youngsters he found gathered in one of the Market Street arcades in Newark, N.J. We believe that this is important, not only to that individual arcade, but to all the country's arcades because it proves one very pertinent point, that the average newspaper investigator makes a bee-line to the arcade for investigating juvenile delinquency.

It is a fact that the average arcade owner has made it his business to keep his place as clean and respectable as is humanly possible. The Arcade Owners Association should now get around to suggesting rules and regulations for their members which could act as a "guide" for all arcades in the country. Yet, regardless of the fact that the average arcade is so intensely interested in keeping minors out of the place (unless accompanied by parents or guardians) the one spot which disregards this all-important fact can upset the apple-cart in any city in this nation. (Just as was done with pin games in some of the major Eastern cities.)

We believe that it is now high time that the arcade men came together to arrange for a set of rules and regulations which will prove to all the nation their intents and purposes regarding the new and greater "theatres of amusement" which the future holds for them. These arcade men, by adopting such a set of rules and regulations, can gain greater respect and prestige in their own communities as well as from lawmakers everywhere, proving that their desire is to strictly maintain a place of respectable amusement for adults (and for children accompanied by adults) to give a few minutes or a few hours of interesting, pleasing, relaxing and varied entertainment, economically.

"The Coin Machines Merry-Go-Round"

This article which appeared in the Newark Evening News has been called to our attention by quite a few men in New Jersey. Each one of these men should make it their business to get together with all other arcade men and agree on this one very important point and paint such a sign and blaze it out in the most prominent place in their arcades: "MINORS NOT ALLOWED UNLESS ACCOMPANIED BY ADULT". Furthermore, the arcade men should also advise the public as to the rules and regulations which they voluntarily practice and thereby win respect and prestige from all in their communities by living up to the high standards they set for themselves. Notification of these rules and regulations should also appear prominently in their arcades for all to read. On a national scale this will prove one of the most impressive jobs ever done by any division of this industry at anytime in history.

HONORABLE MENTION

This week it is our pleasure to give our Honorable Mention Award to Gordon B. Mills of Mills Novelty Company, Chicago, Ill., for the remarkable post-war planning he is doing which will most decidedly benefit all this industry.

This week, too, our Honorable Mention Award will go forward to Wm. R. Burt of Wichita, Kansas, for the remarkable efforts he has put forth to help maintain equipment for the operators in this industry.

MOVIES PLUS WIRED MUSIC

In the very near future we hope to present a feature showing drawings, diagrams, photos and complete explanation of the Panorams fitted with wired music which is certain to prove of good interest to all this industry. These instruments are already in operation on the West Coast and are proving themselves remarkable money getters. Here is something that is truly ingenious from a mechanical standpoint which may encourage others in this industry to developments of just as great ingenuity and thereby benefit all concerned. It is not the fact that this is a Panoram machine that counts, it is simply that once again the ingenuity of those men engaged in the coin machines industry has come to fore to again prove that they are capable of refitting and revamping and completely overhauling machines to bring about the nucleus for the type of equipment we look to in the post-war era.

INVITATION

Whenever we hear of some ingenious creation, as the above, we make it our business to obtain the plans, diagrams, drawings and photos, as well as a complete technical explanation and the story behind the development, for we feel that this is important to all of us in this industry. As has been stated many times by those who know the coin machines business, "The nucleus for all good machines are created in cellars and attics by those small operators who absolutely must keep their equipment working and earning money for them. From these handmade developments come all the great moneymakers of this industry". Therefore, if you know of any such product that is now operating successfully, please do advise us and help us follow up to obtain the information for all the rest of the industry to enjoy and benefit thereby.

WOMEN WORKERS

With the manpower shortage, we've been boosting women for jobs in coin machine companies. If you're still hesitating, read the following report that comes from England.

"BRITISH GALS TAKE ON HEAVIEST MEN'S WORK". "British women war workers are taking to heavier jobs in such numbers that they'll be able to hold their own if anyone gets tough with them. In one of the largest steel works 500 women have been transferred from lighter tasks to such jobs as riveting, crane driving, cold sawing, stamping and other work requiring brawn. In some plants they are even loading slag, a tough job for husky men."

RADIO TUBES

FOR YOUR PHONOGRAPHS, PANORAMS AND GUNS

A N D

WPB LIMITATION ORDER L-265

As an Operator of Coin Equipment, we believe you classify as a "Consumer" of Electronic Equipment under L-265, and must turn in a tube for each tube purchased.

We have been selling Radio Tubes to Coin Machine Operators by mail and under L-265 it would be necessary for us to receive your exhausted tubes Express Prepaid before new tubes could go forward to you.

Order L-265 will tend to equalize dealer's tube stocks over the country; and we further understand that WPB is planning the release of Eleven Million tubes for Civilian use which will enable operators to readily exchange tubes with their local dealers.

Under the above circumstances we are discontinuing our Radio Tube Service to the Coin Machine Trade, and want to thank our many customers for orders sent us in the past.

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

- 1—Means price went up.
- 2—Means price went down.
- 3—Means this machine just added to list.
- 4—Means prices went up and down same week.
- 5—Means prices remained same as in past week's issue.
- 6—Means no prices quoted for this machine this week.
- 7—Means no prices quoted for this machine for past two weeks.
- 8—Means no prices quoted for this machine for past three weeks.
- 9—Means no prices quoted for this machine for past four weeks or longer.

IMPROVING

The American Medical Association is a non-profit corporation organized for the purpose of promoting the science and art of medicine and the health of the people. It is the largest and most influential organization of its kind in the world. Its members are the physicians and surgeons of the United States and Canada. Its purpose is to advance the medical profession and to protect the public interest. It does this by publishing the Journal of the American Medical Association, by holding annual meetings, and by advocating legislation for the improvement of medical education and practice.

THE NEW RATES

Beginning with the next (June 1, 1943) issue, the advertising rates of The Cash Box, for extra space advertisements, go up to \$50 from \$42.50, as per the new "Ad Layout Sheet" enclosed with this issue. This is a very, very small increase considering the great jump in all general costs due to the much enlarged circulation which The Cash Box enjoys today. The completely printed pages also rise in cost to \$75, with contracts allowed for 13 times, 26 times and for a full year of 52 issues allowing as much as 15% cash discount. Many have, for sometime now, asked The Cash Box to equalize its rate. Instead of \$2.00 for the first unit, and then gradual increase of cost for each unit thereafter, "And", as one subscriber stated, "penalizing people like ourselves when we want to take larger space, for the first unit costs us \$2.00 and the last one costs us \$6.50", we have now equalized the rate by charging \$5.00 for each unit of space (each unit being 7 inches long by one inch high) whether the first one only or all ten units are used.
